Although vehicle theft has been on a long downward trajectory, it is still a severe economic hardship for many to lose their vehicle to theft—especially if a vehicle is uninsured. That is why NICB continues to advise all drivers to review our four “Layers of Protection”:

- **Common Sense:** Lock your car and take your keys. It's simple enough, but many thefts occur because owners make it easy for thieves to steal their cars.
- **Warning Device:** Having and using a visible or audible warning device is another item that can ensure that your car remains where you left it.
- **Immobilizing Device:** Generally speaking, if your vehicle can't be started, it can't be stolen. “Kill” switches, fuel cut-offs and smart keys are among the devices that are extremely effective.
- **Tracking Device:** A tracking device emits a signal to the police or to a monitoring station when the vehicle is stolen. Tracking devices are very effective in helping authorities recover stolen vehicles. Some systems employ “telematics,” which combine GPS and wireless technologies to allow remote monitoring of a vehicle. If the vehicle is moved, the system will alert the owner and the vehicle can be tracked via computer.

Considering a used vehicle purchase? Check out VINCheckSM, a free vehicle history service for consumers. Since 2005, NICB has offered this limited service made possible by its participating member companies. Check it out at: www.nicb.org/vincheck.

*This report reflects stolen vehicle data contained in NCIC and present in the “NCIC mirror image” when accessed by NICB on March 2, 2015. NCIC records may contain errors based on inaccurate entries submitted by reporting agencies. Full size pickups include half ton and larger capacity models for all makes.
