

Leverage NICB Dashboards to Fight Fraud

Identifying fraud is the first step to combat it. By using NICB Member Dashboards, you can see the impact of potentially fraudulent claims on your company and customers. The Questionable Claim data on the dashboards are specific to your member group.

Member Dashboards Track Claim Fraud

Member Questionable Claims

This dashboard provides detailed Questionable Claim information for your member group to detect fraud trends, monitor quality, and assess resource needs.

QCNet

This dashboard allows you to quickly develop investigative leads on Questionable Claim subjects of investigation based on your priorities.

ForeWARNSM Exposure

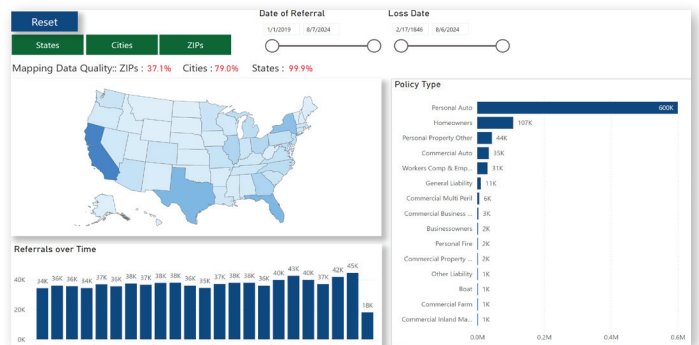

This dashboard triages alerts and allows you to prioritize your analytical and investigative resources based on your company's claims exposure.

Vehicle Theft & Recovery

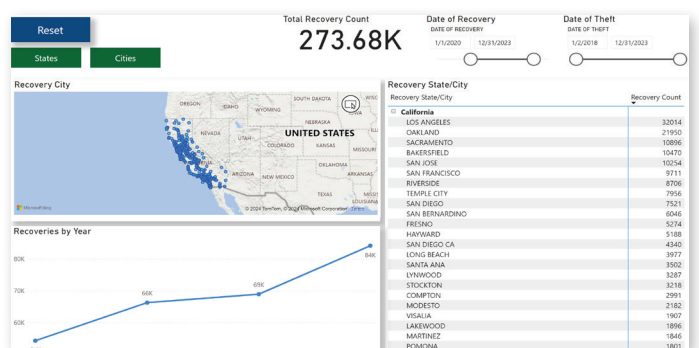

This dashboard allows you to view your company's vehicle theft claim and recovery information and compare it to industry averages.

Contact Our Experts

If you need help, access the user guide and tutorial available on each dashboard's landing page. You can also contact our experts at IntelligenceandAnalytics@nicb.org.
